Led buzzer *Magnetic Bar*

User's Manual

Technologie für Sicherheit – Technology for Safety

Thank you for choosing a BREMI product

The use of the "Led Buzzer Magnetic Bar" (Item EVSLED01) is reserved for qualified personnel.

This product is designed exclusively as an accessory for the following devices:

EV-SAFE (EVSAFE02)

EV-SAFE Rescue (EVSRES01)

EV-SAFE Rescue Ground (EVSRES02)

MAGNETIC FLASHING LIGHT WITH ACOUSTIC BUZZER

General Description:

The "Led Buzzer Magnetic Bar" accessory, when connected to the EV-SAFE and EV-SAFE Rescue devices (equipped with a rear connector), allows you to extend/replicate the visual and audible warnings.

N.B. This accessory is normally used by firefighters.

Operation and Application:

1. Connect the "Led Buzzer Magnetic Bar" accessory to the rear connector of the EV-SAFE.
2. From now on, the functions of the EV-SAFE LEDs and internal buzzer will be replicated by the "Led Buzzer Magnetic Bar" device.
3. The device is equipped with an elastic coiled cable and magnetic attachments that allow it to be attached to the vehicle's chassis.

General terms for safe use are described in the original EV-SAFE and EV-SAFE Rescue instructions.
